Hair styles, make-up, etc. must not be a distraction to the learning of the individual or others.

### **General Guidelines**

This guideline applies to clothing worn at any school function.

Any other attire deemed to be indecent, inappropriate or disruptive to the school learning environment will be addressed by school administrators on an as-needed basis.

Current school-issued identification badges are required for all students in grades 6 through 12. IDs must be on person. IDs should not be defaced in any manner. Exceptions to this rule may be made for safety reasons when deemed appropriate by a teacher or administrator.

Certain school environments or classes may require more restrictive dress due to safety issues, i.e. Career/ Technical classes, science labs, physical education. Students are expected to comply with safety guidelines. Student dress and appearance are the responsibility of the student and the parent.

Bedroom clothing and bedroom shoes are inappropriate. Blankets are not allowed at school during the normal school day. Any other questionable or distracting attire will be handled on an individual basis at the discretion of the administration. As styles change, the school reserves the right to provide further clarification of inappropriate dress.

School-wide exceptions may be made to this policy for such special events as "hat days" or "spirit days." The school principal and/or designee will make the final determination on whether a student's dress conflicts with these guidelines. Other exceptions to this rule could be made by the administration based on student's medical or documented religious beliefs.

Appropriate action and consequences for failing to comply with the dress code policy will be addressed by school officials.
